Mr. Patel,

The Department has reviewed new source submittal #2518 for 85-89 Jane Street, New York, NY to go to Hazleton Reclamation Project Site, sample B2 0-2 has a total PCB concentration of 7.73 ppm (greater than 2ppm) and may be subject to regulation under the Toxic Substance Control Act (TSCA) which is administered and implemented by the USEPA. We recommend that you contact the EPA Region 3 PCB Coordinator at R3_PCB_Coor@epa.gov to determine the allowable PCB level of your site and situation.
